## Our members speak about the role of TempNet in their independent business success...

"TempNet is definitely one of the best things we ever did for our business. It is a wealth of knowledge and great group of people who either are or have been where you are and are willing to share everything they know with you."

**Sabrina Paphitis**  
Doubletree Personnel, Inc.

"Joining TempNet in the summer of 1994 was the best business decision I ever made. When I attended my first conference I was absolutely astounded at the wealth of information freely shared among members. I gained more knowledge in my first TempNet meeting than in several years of attending state and national association meetings!"

In addition to the accelerated learning curve provided by TempNet, I have made valuable friends and business contacts across the country. My company has grown in sales and profits and I have grown professionally as well as personally from my membership. I would recommend TempNet without reservation to any independent staffing firm interested in improving their bottom line, running a quality company, and growing their staffs and themselves professionally."

**Jill Tillinghast**  
Owner and Chief Executive Officer  
Personnel Preference, Inc.

"This was my first conference with TempNet. I had been with another networking group for independent services for years...this group has that one beat HANDS DOWN! We felt welcome and a real part of the organization right away. I am impressed with the caliber of the companies. I know my membership ROI will meet my expectations and then some."

"Thanks to TempNet, I own my business. I was a staff member attending a TempNet conference. The owners of my company were selling. I learned from a TempNet owner, Bob Liken, how I could buy the company. I followed his advice, bought the company, and have been successful beyond my dreams."

**Mary Swindle**

"The ultimate measure of a TempNet member is not where they stand in moments of comfort and convenience, but how they stand together in times of challenge."
